Summary

Motivated and detail-oriented Computer Science student pursuing a B.Tech at Bansal Institute of Engineering and Technology, Lucknow. Skilled in Flutter, Python, Java, and Machine Learning, with hands-on experience in developing mobile and web-based applications using Firebase and SQL. Passionate about creating user-centric digital solutions and integrating AI-powered functionalities. Published a research paper in the field of Artificial Intelligence and Machine Learning, and actively participated in national-level hackathons. Quick learner with strong problem-solving, design, and communication skills, eager to contribute to innovative software projects and real-world technology challenges.

Skills

Python | Java | Flutter | Dart | Machine Learning | MongoDB | SQL | CSS | HTML | UX Design | Web Design | Android App design | Power Bi | MS office | Excel | PowerPoint

Education

Bansal Institute of Engineering and Technology, Lucknow, Uttar Pradesh, India (Pursuing)	2022 - 2026
S R Global School BKT, Lucknow, Uttar Pradesh, India	2020 - 2022
• Class 12 Percentage: 60%	
Shanti Kripa U M V Abadan Bairan, Ghazipur, Uttar Pradesh, India	2018 - 2020
• Class 10 Percentage: 71%	

AI Tool

1. Chat GPT
2. Copilot
3. Gemini Pro2.5
4. BlackBox AI
5. Deep Shek

Projects

Todo List – Daily Task Digital Notebook

- Flutter | Dart | Firebase |
- **Utilized state management with Provider/Bloc**, allowing real-time UI updates and maintaining clean separation of concerns for better scalability.
- Implemented local data persistence using SQLite/Shared Preferences, ensuring tasks remain saved between sessions without requiring internet access.

My Campus – Collage Base Application

- Flutter | Dart | Firebase |
- Embedded an **AI-powered chatbot using Dialogflow or OpenAI API** to answer student queries related to campus facilities, faculty contacts, and course info.
- Used **Firebase Cloud Firestore** to dynamically personalize dashboards and news feeds based on user roles (Student, Faculty, Admin) and course/branch.

Inventory Management System –

- Python | SQL |
- **Implemented data persistence with SQLite/MySQL**, enabling secure and structured storage of inventory records with real-time update capabilities
- **Added reporting and analytics features using matplotlib/Pandas**, generating daily stock reports, low-stock alerts, and sales summaries for better decision-making.

Project Launcher Dashborad –

- Developed **five AI-powered web applications** including a Course Recommendation System and Student Performance Predictor using **Python, Streamlit, and Scikit-learn**.
- Applied **data preprocessing, feature engineering, and model training** techniques using Pandas, NumPy, Matplotlib, and Seaborn to derive actionable insights.
- Gained hands-on experience in **building and deploying ML models**, improving analytical thinking, and solving real-world educational challenges through **data-driven automation**.

Achievements

1. Publish single Research Paper in the field of **AI and ML Network**.
2. Worked as a Designing Team member in **NEC IIT Bombay**.
3. Training in **Data Engineering** of 3 month by **HCL TECH**.
4. Participated of **Dev Heat Hackathon** organized by **Indian Institute of Information Technology (IIIT), Surat**.
5. Summary Internship on **Python with Data Science** by **SoftPro India Computer Technologies PVT.LTD**.

Coursework Subjects

1. Database Management System
2. Object Oriented Programming
3. Operating System
4. Computer Network
5. Software Engineering
6. Data Structure and Algorithm
7. Machine Learning
8. Cloud Computing

Strengths

- Highly confident and innovative in the area of expertise.
- Swift in learning and implementing new topics and techniques.
- Determined to learn with practical approach.
- Good communication skills and managing skills.
